

Due to variety of local, state, and federal COVID-19 related restrictions on person movement, Tactrix will be working under reduced hours until such restrictions are lifted. We will be attempting to remotely answer email inquires (while also watching our own children and keeping our spouses sane("Happy wife, Happy life!")) and coming in to the office periodically to ship orders. We expect that we will still be able to supply hardware regularly, but in many cases it will take a few more days to process. In particular we are closing for a few days which means our next shipping day will be Monday May 11th. We thank you for your understanding and wish you and your families good health during this challenging time for us all.
